

Public Notice

NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION FOR THE CRITTENDEN LANE TRAILHEAD IMPROVEMENTS PROJECT

WHAT'S BEING PLANNED

The proposed project would replace the existing Crittenden Lane Trailhead with a 280-foot-long, 12-foot-wide trailhead featuring 2-foot-wide shoulders, driveway improvements at the Crittenden Lane cul-de-sac, signage and striping improvements, and ADA-compliant gradients supported by a combination of retaining walls and fill slopes. Portions of the new trailhead facility would be relocated just north of the existing trailhead. However, the new trailhead would intersect Stevens Creek Trail at the same location as the existing trailhead.

WHY THIS AD

An Initial Study has been prepared for the proposed project and the analysis has determined that there will be no significant environmental impacts with implementation of mitigation measures. The public review period for the Initial Study and proposed Mitigated Negative Declaration is from **November 1, 2019** to **December 1, 2019** at 5:00 p.m.

WHAT'S AVAILABLE

Information regarding the proposed project, the Initial Study, Draft Mitigated Negative Declaration, and all documents referenced in the environmental analysis are available for review in the City of Mountain View Public Works Department, 500 Castro Street, Mountain View, CA 94041. Written comments regarding the project may be sent to Arlynn A. Bumanglag, Associate Engineer, at the mailing address listed above or via email at Arlynn.Bumanglag@mountainview.gov.
